GREETINGS;

Summer's just around the corner, and you know what that means – so is the Jack Henry Banking® Platinum Performance Club!

Hopefully, you were able to enjoy St. Thomas' famous rum that I sent with our last mailing. But rum isn't the only thing the town is known for ... did you know that in addition to being one of the largest producers of rum in the world, St. Thomas is also famous for its diamond selection?

Said to be the diamond capital of the Caribbean, St. Thomas offers diamonds of all shapes, sizes, and colors – colorless, yellow, pink, red, green, blue, purple, orange, and black – at substantial discounts, making the town a great destination for shopping.

Everyone has heard of the four C's of a diamond's attributes, but a diamond expert will tell you that in addition to the C's, there is a very important B. We have some diamonds of our own in this team of performers, who all have this one attribute.

The B is for brilliance. You don't get to Jack Henry or into this sales team without a certain amount of intelligence or brilliance. You are brilliant in your performance, in your professionalism, in your personal and business conduct, and in the way you obtain leads and close sales.

So let this little trinket be a reminder of how you got to this team, as well as an inspiration to let your brilliance shine as you finish out FY13. (And perhaps your significant other has an idea of getting the real thing in one of the many diamond shops in St. Thomas!)

In fact, a quick Google search of "St. Thomas Diamonds" returns more than three million results, and a look at Trip Advisor confirms nearly 40 fine jewelry sellers in the immediate area.

And in addition to the shopping, don't forget the sightseeing, scuba diving, sailing, golfing, surfing, hiking, and deep-sea fishing that helped St. Thomas earn its status as a vacationers paradise.

I'm looking forward to seeing everyone at the Ritz Carlton in St. Thomas, Virgin Islands August 7 – 9, but remember that in order to go to St. Thomas and on that shopping spree, you need to hit your objectives for FY13.

Finish strong!
